

TASK 3: SOURCE PROPERTY IDENTIFICATION AND REFERRAL PULGAS CREEK PUMP STATION WATERSHED

Watershed / Monitoring Information	
Location	San Carlos, San Mateo County
Watershed Area	1.4 km ²
Percent Old Industrial Land Use	60%
Percent Old Urban Land Use	18%
Historic Rail	none
Current Rail	669 meters
Soil/Sediment Samples Collected	23

Notes

The San Mateo Countywide Water Pollution Prevention Program (SMCWPPP) is currently working with the City of San Carlos to determine next steps (e.g., referral) at several sites in this watershed where sediment samples with elevated concentrations of PCBs were collected. SMCWPPP is also collecting additional sediment samples in the watershed during spring 2017.
