

B A S M A A

- Project:** Clean Estuary Partnership (CEP)
- Description:** The CEP was formed in 2001 by the Regional Water Board, BASMAA, and BACWA. The purpose of this project was to use sound science, adaptive management, and public collaboration to develop and implement technically valid and cost-effective strategies including TMDLs that result in identifiable, sustainable water quality improvements for San Francisco Bay. To facilitate the achievement of these goals, the three organizations collaboratively developed work plans, schedules for implementing the work plans, and funding sources, and conducted the projects.
- FY:** Year 0 - FY 01/02 through Year 4 - FY 05/06
- Overseer:** CEP Executive Management Board
- Contracting Agency:** BACWA
- Contractors:** Applied Marine Sciences (program management); Numerous other consultants and subconsultants
- Budget:** FY 01/02 - \$150,000; FY 02/03 - \$600,000; FY 03/04 - \$476,797; FY 04/05 - \$457,584; FY 05/06 - \$457,584
- Participants:** Alameda, Contra Costa, Fairfield-Suisun, Marin, San Mateo, Santa Clara, and Vallejo
- Status:** Done
- Deliverable(s):** See Clean Estuary Partnership web page
