Project: EPA Grant Application / Proposal

Description: BASMAA engaged a team of consulting firms that had conducted a significant amount of work for BASMAA and therefore were very familiar with it and its member agencies needs and capabilities to develop a grant application and proposal for the EPA San Francisco Bay Water Quality Improvement Fund (SFBWQIF). The grant application and proposal included an application form, letters of support, and a proposal narrative, budget, and schedule. The funding request was for \$800,000, matched 100% by local monies from the six Municipal Regional Permit areawide programs for a total project budget of \$1.6 million. The project was scheduled for three years (January 2017 – December 2019). Unfortunately, the proposal was not selected for funding.

FY: 16/17

Overseer: Board of Directors

Contracting Agency: BASMAA

Contractor: Geosyntec; EOA; LWA

Budget: \$32,500

Status: Done

Deliverable(s): Grant Application / Proposal: *Demolishing PCBs at the Source, a Bay Area Partnership* (May 2016)
