

B A S M A A

- Project:** Integrated Community Involvement Program
- Description:** BASMAA supported an effort by the Coyote Creek Riparian Station (CCRS) to conduct an Integrated Community Involvement Program in a selected watershed. The approach was to draw upon individual programs developed by CCRS and others and bring them together in an integrated fashion. The programs that were integrated are: Stream Inventory, StreamKeeper Program, Watershed Festival and Community Awareness Program, and a Volunteer Monitoring Curriculum. CCRS also produced a generic plan and recommendations for broad implementation of the approach in other Bay Area watersheds.
- FY:** 95/96
- Overseer:** Executive Board
- Contracting Agency:** BASMAA
- Contractor:** Coyote Creek Riparian Station (CCRS)
- Budget:** \$50,000
- Status:** Done
- Deliverable(s):** *StreamKeepers in Your Community* Manual and Workshop; Watershed Brochure and Festival; *Integrated Community Involvement Program-The Saratoga Creek Experience* report; *Saratoga StreamKeeper Program Report* (June 1997)
-
