- Project:** Regional *Blueprint for a Clean Bay*
- Description:** *Blueprint for a Clean Bay* is a primer on construction best management practices (BMPs) originally developed by the Santa Clara Valley program. In 1995, BASMAA used its New Development and Public Information / Participation Committees to update and “regionalize” this local outreach piece. BASMAA coordinated the final production and printing of *Blueprint*, and distributed it to member stormwater programs.
- In 1999, BASMAA conducted a minor revision to the booklet, which involved updating the contact information and providing additional resource referrals on the back cover.
- In 2003, BASMAA conducted a major revision of the booklet, which included:
- adding Phase II stormwater regulatory information
 - revising descriptions of best management practices, as well as replacing one of the BMP graphics
 - updating the contact information and providing additional resource referrals on the back cover
- In 2007, BASMAA conducted a minor revision to the booklet, which involved updating information on the back cover.
