

B A S M A A

- Project:** Regional Construction Education Program III
- Description:** The purposes of this project were to scope out the need for and, if justified, plan a training program for contractors and subcontractors not addressed by the current construction workshops sponsored by the Regional Water Board. After a survey of BASMAA member stormwater programs was conducted to learn about current efforts to educate subcontractors, the actual scope focused on three categories of subcontractors:
- painters,
 - saw cutting companies, and
 - concrete, asphalt, and stucco contractors
- The scope included:
- Research, review, and adaptation of educational materials for these groups of subcontractors
 - Development of a mailing database for these groups of subcontractors
 - Distribution of the educational materials to these groups of subcontractors
- FY:** 00/01
- Overseer:** New Development Committee
- Contracting Agency:** BASMAA
- Contractors:** Claire Elliott; Lauren Wohl Design
- Budget:** \$14,990
- Status:** Done
- Deliverable(s):** *Regional Construction Education Program – Phase III Project Report* (May 2001); Construction contract language (November 2002); Plan Sheet (November 2002); Tri-folds (Concrete, Home repair, Painting, Sawcutting) (November 2002); IC/ID Cards – English and Spanish (Concrete work, Painting, Sawcutting) (November 2002)
-
