- Project:** Baseline Trash Load Estimate 2010/11 Wet-Season Monitoring
- Description:** There are three phases towards development of baseline trash loading estimates: 1) methods development; 2) data collection; and 3) data analysis and reporting. This project was associated with Phase II. The goal of this project was to develop information to assist Municipal Regional Permit (MRP) permittees in determining baseline trash loads from their municipal separate storm sewer systems through monitoring of full capture devices. The following tasks were conducted through this project:
- Identification of Trash Monitoring Sites / Devices
 - Trash Characterization Monitoring
- FY:** 10/11 – 11/12
- Overseer:** Trash Committee
- Contracting Agency:** BASMAA; SMCWPPP; SCVURPPP
- Contractors:** Cascadia Consulting Group; EOA
- Budget:** \$111,495 (\$4,972 In-Kind from SMCWPPP; \$15,023 In-Kind from SCVURPPP)
- Status:** Done
- Deliverable(s):** Baseline Trash Loads Project - Monitoring Site Identification (January 2011)
