

We'll do the Job Right!

is a Recognized Mobile Cleaner trained to prevent pollution of local creeks, the Bay, and Delta.

Cleaning water from

- Sidewalks
- Plazas
- Dumpster areas
- Building exteriors
- Parking areas/drive-throughs

pollutes our waterways when allowed to reach a creek or storm drain. Storm drain pollution is against the law in California. Liability is shared by the property owner and the actual discharger.

We've been trained to *Do the Job Right*.

When we're finished, we'll provide you with a voucher declaring that your premises have been cleaned by a Recognized Mobile Cleaner.

Ask us about:

- Using dry cleanup methods before washing
- Blocking storm drains to protect them from pollution
- Directing wash water to landscaping if acceptable

Recognized by the Bay Area Stormwater Management Agencies Association and the San Francisco Bay Regional Water Quality Control Board.
