Transportation Funding Related to Sustainable Streets

Facilitator: Matt Fabry, Bay Area Stormwater Management Agencies Association
Panel: Transportation Funding Agency Representatives

Sustainable Streets =

“Complete Streets” + Green infrastructure

- Provides safe access for pedestrians, bicyclists, motorists, and transit riders
- Enhances public health
- Reduces greenhouse gas emissions
- Reduces air pollution
- Reduces water pollution
- Reduces the urban heat island
- Sequesters carbon
- Provides flood storage

SB 1 - RMRA Program

- CHAPTER 2. Road Maintenance and Rehabilitation Program
- 2030. (a) The Road Maintenance and Rehabilitation Program is hereby created to address deferred maintenance on the state highway system and the local street and road system. Funds made available by the program shall be prioritized for expenditure on basic road maintenance and road rehabilitation projects, and on critical safety projects.

(b) (1) Funds made available by the program shall be used for projects that include, but are not limited to, the following:
   - (A) Road maintenance and rehabilitation.
   - (B) Safety projects.
   - (C) Railroad grade separations.
   - (D) Complete street components, including active transportation purposes, pedestrian and bicycle safety projects, transit facilities, and drainage and stormwater capture projects in conjunction with any other allowable project.
SB -1 RMRA Program

• (e) To the extent deemed cost effective, and where feasible, in the context of both the project scope and the risk level for the asset due to global climate change, the department and cities and counties receiving funds under the program shall include features in the projects funded by the program **to better adapt the asset to withstand the negative effects of climate change and make the asset more resilient to impacts such as fires, floods, and sea level rise**

SB -1 RMRA Program

• (f) To the extent beneficial, cost effective, and practicable in the context of facility type, right-of-way, project scope, and quality of nearby alternative facilities, and where feasible, the department and cities and counties receiving funds under the program shall **incorporate complete street elements into projects funded by the program, including, but not limited to, elements that improve the quality of bicycle and pedestrian facilities and that improve safety for all users of transportation facilities.**
Roadmap of Funding Solutions for Sustainable Streets

Laura Prickett, Horizon Water and Environment

Outline

- Purpose of Roadmap
- Specific Actions
- Roles and Responsibilities
- Tools for implementation
- How to comment on Draft Roadmap
Chapter 1: Purpose of the Roadmap

- Identify and commit to specific actions to achieve the funding of green stormwater infrastructure as an integral component of multi-benefit projects.
  
  - Emphasis on streets due to:
    - Water quality impacts of motor vehicles,
    - Stormwater collection and conveyance function provided by roadway surfaces, and
    - Integration of storm drain systems into streets and roads
    - State and regional focus on investing in active transportation

Chapter 2: Specific Actions

- Specific Actions are Grouped by Pathways
  1. Prioritize Sustainable Streets in Funding Sources
  2. Improve Conditions for Using Multiple Grants
  3. Additional Funding Options

- Each Pathway includes timeframes for Specific Actions
  - Immediate (2017-18)
  - Short-term (2018-19)
  - Long-term (2019-20)
Example Specific Actions: Funding Agencies

- Three specific actions are assigned to many funding agencies

Chapter 3: Roles and Responsibilities

- Roadmap Participants
  - Table in Chapter 3 lists anticipated participants
- Champions
  - Two champions confirmed so far
- Roadmap Committee
  - Consists of participants; officers to be elected
- Tracking and Follow-up
  - Annual meeting to publicize progress
Tools Included in Roadmap

- For Champions
  - Executive Summary: 2-page briefing document

- For Implementation Agencies
  - List of funding programs: Appendix B

- For funding agencies
  - Checklist to identify policy changes: Appendix D
  - Case Studies illustrating how to use the checklist: Appendix E
  - List of Roadmap Participants: Appendix G (placeholder)

How to Comment on Draft Roadmap

- Each Roundtable Participants has about one minute for oral comment today

- Email written comments to:
  - Patrick Donaldson
  - Patrick@horizonh2o.com

- Deadline for written comments:
  - Friday, October 20, 2017
Input from Roundtable Participants

- Consider commenting on:
  - Specific Actions
    - Actions suggested for your agency or organization
    - Additional Specific Actions you may recommend
  - Implementation
    - How to ensure Specific Actions are implemented and tracked
    - Proposed Roadmap Committee and process to implement Roadmap – what would you recommend?
    - What process would make it easiest for your agency or organization to sign onto the Roadmap?
