

Active Ingredient
2-phenethyl propionate
Abamectin
Alkylphenoxy polyethoxy ethanol & IPA
Allyl isothiocyanate from essential oil of mustard & related capsaicinoids (from oleoresin of capsicum)
Ammoniated salts of fatty acids
Ammoniated soap of fatty acids
Ammonium salts of fatty acids
Ammonium soap of higher fatty acids
Arsenic (in enclosed bait form only)
Avermectin
Avermectin B1
Azadirachtin
Bacillus subtilis
Bacillus thuringiensis israelensis
Bacillus thuringiensis Kurstaki
Barley extract
Benzyl diethyl (2.6 xylyl Carbamoyl methyl) ammonium saccharide
Black pepper
Black pepper oil
Blood meal
Borate
Borax
Boric acid
Bt
Bt israelensis (Bti)
Calcium
Calcium carbonate
Calcium polysulfides
Canola oil
Capsaicinoids
Capsaicin
Castor oil
Cedar oil
Cinnamon
Cinnamon oil
Citric acid
Citronella oil
Clarified hydrophobic extract of neem
Clove oil
Cloves
Coconut oil soap
Coconut oil
Copper ammonium complex
Copper metallic
Copper metallic 8%

Copper octanoate
Coriander
Corn gluten meal
Cottonseed oil
Crosslinked polyacrylamide
Cydia pomonella granulovirus
DE
Diatomaceous Earth
dihydro-5-heptyl-2 (3H) – furanone
dihydro-5-pentyl-2 (3H) – furanone
Disodium octaborate tetrahydrate
d-Limonene
Dried blood
Egg white solids
Egg solids
Elemental sulfur
Eugenol
Feather meal
Fipronil (containerized bait or indoor gel only)
Fish oil
Fuller’s earth
Garlic
Garlic extract
Garlic juice
Garlic oil
Garlic powder
Geraniol
Geranium oil
German cockroach pheromone
Glycerol
Gum resin
Hydramethylnon(Containerized bait and gel form only)
Hydrophobic extract of neem
Iron HEDTA
Iron oxide
Iron phosphate
Isopropol
Laurel sulfate
Lauric acid
Lecithin
Lemon eucalyptus oil
Lemon grass
Lemon grass oil
Malic acid
Methoprene
Mineral oil
Mint
Mint oil
Molasses

Mono and di-potassium salts of phosphorous acid
Neem extract
Neem oil
N-ethyl Perfluorooctanesulfonamide (Sulfluramid)
N-ethyl Perfluorooctane sulfonamide
Nitrobacter nitrifying bacteria
Non pathenogenic nitrosomas
Non toxic lure (pheromone)
Oleic acid
Orthoboric acid
Paraffinic oil
Peppermint oil
Petroleum oil
Petroleum oil – superior paraffinic type
Phermone(s)
Picaridin
Pinene
Piperine
Polybutene
Potassium bicarbonate
Potassium carbonate
Potassium salts of fatty acids
Potassium salts of fatty acid derived from neem
Potassium soap of fatty acids
Potassium sorbate
Putrescent egg solids
Putrescent whole egg solids
Pyrethrins
Roisin – Rubber
Rosemary
Rosemary oil
Salt
Sesame oil
Silicon dioxide
Soap
Sodium acetate
Sodium benzoate
Sodium chloride
Sodium laurel sulfate
Sodium lauryl sulphate
Sodium lauryl sulfate
Sodium tetraborate
Sodium tetraborate decahydrate (borax)
Sorbitol
Soybean oil
Spinosad
Spinosad - mixture of Spinosyn A and Spinosyn D

Stearic acid
Streptomyces lydicus
Sucrose
Sulfur
Thyme oil
Thymol
Unulfonated petroleum oils
Vanilla
Vegetable protein lure
Vegetable wax
Vinegar
White pepper
Whole eggs
Whole pepper
Yeast
Yellow grease
