

FREE SEEDS

Attract beneficial insects to your garden. Grow an Insecta-Flora flower patch for control of “bad” bugs. Don’t forget - pesticides kill good bugs too, so use less toxic products to protect the environment and your health. Free Insecta-Flora seeds available at the stores listed below.

Good at participating stores thru May 30, 2004 or until supplies last. One packet per coupon.

Visit these stores for free pest fact sheets, environmentally-friendly products, resource books, and knowledgeable staff. Look for this symbol on the store shelves to find less-toxic gardening products.
