

Our Water, Our World

Helps YOU help your CUSTOMERS

Who's behind this promotion?

Our Water, Our World is a partnership between Bay Area water pollution prevention agencies and more than 100 garden centers and hardware stores that sell pest control products. The promotion aims to reduce pollution caused by pesticides in local creeks, the Bay, and the Delta.

Helpful materials for store staff and customers

FACT SHEETS contain clear, easy-to-read, in-depth information about gardening topics and control of specific pests. Each fact sheet includes a list of recommended less-toxic products.

Ants
Aphids
Cockroaches
Fleas
Spiders
Yellowjackets
Lawn Care (includes information about controlling grubs)
Roses

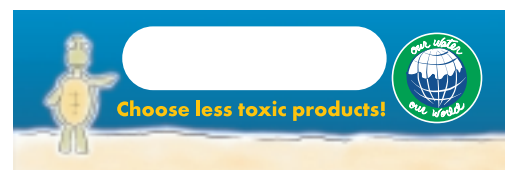

Snails and Slugs

Managing Pests with a Healthy Garden

Problem Pesticides (details about how pesticides pollute our waterways, and EPA's actions on diazinon and chlorpyrifos/Dursban)

Safe Use and Disposal of Pesticides (Every customer who purchases a pesticide should get one of these!)

SHELF TALKERS identify recommended less-toxic products for you and your customers. Your local water pollution prevention agency representative will put these in place at the beginning of the promotion.
