Section 2

Science & Nature

A quarterly section about science, technology and the environment, edited by Alison Davis

GET A TUNE-UP... Help save San Francisco Bay's fish population by giving your car a tune-up, says the Bay Area Stormwater Management Agencies Association (BASMAA). Citing the potentially harmful effects of car exhaust fumes and other environmental pollutants, such as fertilizers, pesticides, motor oil and antifreeze, the group is offering a free car-care guide. "Keeping it all in Tune." To obtain the free pamphlet, call 1-866-BAYWISE.

FUNNY THING ABOUT COMPUTERS... Computer scientists and Pulitzer Prize-winning author Douglas Hofstadter has organized a series of public symposia centered around the provocative issue of whether computers are capable...
