Attendees: Rob Carson, Colleen Hunt, Sandy Mathews, Howard Bunce, Erica Teagarden, Oriana Hart, Bonnie de Berry, Liza DeFrain, John Stiver, Jeff Skinner, Will Stockard, Erica Ahmann Smithies

#### Main Meeting

1. Introductions, announcements, and agenda review.....1:30
  - a. The County of Alameda has announced that signups are open to attend the 2nd Annual Virtual Statewide Conference on Illegal Dumping:  
<https://www.eventbrite.com/e/2nd-annual-virtual-statewide-conference-on-illegal-dumping-tickets-196129216767>
  
2. Permit Reissuance Updates.....1:35
  - a. No new updates at this time. The latest timeframe announced by the Water Board is that the draft will likely come out later this year after the CGP and Caltrans permits have been issued (maybe in the fall).
  
3. Group Discussion.....1:40
  - a. Regional E.12 Training Opportunity – Price sharing and scheduling (Sandy)
    - i. A scope of work is being developed with Dan Cloak to provide a two-part training. There was a discussion on various cost sharing and billing options, as well as scheduling.

- ii. The first part would be a municipal staff level training on post construction requirements, and reviewing designs, stormwater control plans, and ongoing O&M plans. This first part would be a virtual training in March or April.
  - iii. The second part would be a training for both municipal staff and developers on what needs to go into stormwater control and O&M plans, as well as what's been working or not working with similar projects in the Bay Area. This second part may be a virtual training or in person trainings in April or May (depending on Covid restrictions). The second part may be delayed until later in the year if in person workshops are desired but are unable to be held in the spring.
  - iv. Sandy will check back with Dan Cloak on a cost comparison between virtual and in person trainings.
- b. Petaluma River TMDL coordination and regional outreach
- i. Petaluma River Pathogen TMDL – Petaluma has received a Water Quality Improvement grant to move forward with their monitoring plan and interested in partnering with other parties listed under the TMDL to develop the monitoring plan/program. County of Marin and MCSTOPPP (on behalf of the City of Novato) expressed interest in participating.
  - ii. Continued discussion on opportunities to expand the Streets To Creeks outreach campaign included the possibility of doing outreach for the TMDL, and partnerships in general in the North Bay.
- c. Open Discussion
- d. Upcoming Topics – Look into the possibility of the Regional Board giving a presentation about the Sonoma/Napa Vineyard Permit and how the monitoring program is shaping up.

**Next Meeting – February 22<sup>nd</sup>**
