- **Tidal Remote Sampler monitoring location distribution:**
 - We have eight samples we can collect this year [from old industrial areas influenced by tides]. We cannot distribute the samples evenly among the five counties. In lieu of that, do you all have an opinion on how to distribute the samples? And once decided, should SFEI work with each individual county to select sites, or do you think this should be more of a group discussion? The deliverable of this project will be quality-assured PCB and Hg data made available through the CD3 web tool, and a report detailing the methods and results of the pilot study.
- **Emerging Contaminants Workgroup (Reid Bogert):** update as needed.
- **Small Tributaries Loading Strategy (STLS) (Lisa Austin):** update as needed.
- **PCBs Workgroup (Jon Konnan):** update as needed.
